F 724-347-4853

Thank you for choosing us for your healthcare. We appreciate your trust in us, and look forward to working with you and helping you to achieve your goals. We provide state-of-the-art programs in a warm, welcoming environment, giving us the distinction of being leaders in women's health regionally, nationally and internationally. The Center offers a women-focused approach, knowledge, and expertise to provide highly personalized reproductive health care, including evaluation, diagnosis, and treatment.

Included in this packet you will find forms that we would like you to complete and **bring with you to your first visit.** The more information you give us, the more helpful we can be to you, so please be as thorough as possible.

Please arrange to bring copies of your medical records from your referring physician. If you have not made arrangements to have your records faxed/mailed to us, you must bring them with you. All physician offices and hospitals' require written consent to release films and records, so please allow time for this. This past medical history will help us plan your care and treat you more effectively. Without these records, decisions for your care may be delayed. **Our fax number is 412-641-4531.**

If you are a member of an **HMO** or **PPO** insurance that requires a referral or authorization from your Primary Care Physician, please be sure to bring the referral with you or have it faxed to us. It is important that we receive this referral, so that your office visit will be covered by your insurance. You will also be required to pay your insurance co-pay at the time of your office visit. If your insurance does not cover office visits, payment is required at the time of your visit. Payment may be made by cash, check, debit or credit card.

Please plan on arriving at least 30 minutes before your scheduled appointment. If for any reason you have to cancel, we ask that you call our office at least 48 hours prior to your appointment. This will allow us to offer your appointment to another patient who may be waiting.

If you have any questions, please do not hesitate to contact us at 412-641-1600.

Advanced technology, ongoing research and a supportive team approach keeps the Center for Fertility and Reproductive Endocrinology on the cutting edge, but listening keeps us in touch with what matters the most, **You.**

Sincerely,

The Center for Fertility and Reproductive Endocrinology
