

UPMC Hamot is a full-service acute care hospital, as well as a regional referral center and tertiary hub. Founded in 1881 as Hamot Medical Center, the hospital became part of UPMC in 2011. Since affiliating, we have continued to advance and enhance our medical services and residencies at UPMC Hamot. We also have deepened our clinic expertise, research opportunities, and technologies to better care for our patients in the communities we serve, which includes more than 1 million people in northwestern Pennsylvania, western New York, and eastern Ohio.

Our Mission and Vision

Our Mission

To serve our patients, communities, and one another in the UPMC Hamot tradition of quality, health, healing, and education.

To put it simply, “to serve.”

Our Vision

UPMC Hamot will, in partnership with its physicians, payers, and other stakeholders, continue to advance the health and wellness of the communities it serves by achieving clinical quality of the highest national standards and maximizing operational efficiencies.

Our Values

Quality and Safety

We fulfill UPMC Hamot’s mission through commitment to our values of quality and safety, delivered with compassion, service, respect, integrity, and cooperation.

UPMC HAMOT'S \$111 MILLION, 64-BED, PATIENT CARE TOWER DEDICATED TO PROVIDING CRITICAL CARE TO THE REGION.

Kidney transplant

Region's first comprehensive cardiac care center

Our Signature Services

Bariatric Surgery

The UPMC Hamot Bariatric Surgery and Weight Management Center is dedicated to giving patients the services and support they need for a successful weight loss journey. Prior to and following surgery, the bariatric team provides free monthly support group meetings, and access to bariatric nutritionists and psychologists and encouragement from the staff.

UPMC Hamot is accredited as a Comprehensive Center with Adolescent designation by the American College of Surgeons Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program (MBSAQIP) in partnership with the American Society for Metabolic and Bariatric Surgery (ASMBS).

Behavioral Health

Our partnership with UPMC Western Behavioral Health at Safe Harbor strengthens the mental health resources available to residents of Erie County, and provides a direct link to research-based care for a variety of behavioral health conditions.

Comprehensive Lung Center

The UPMC Hamot Comprehensive Lung Center is the first in the nation to use new, groundbreaking technology for earlier detection of lung cancer. Our team of pulmonologists and thoracic surgeons work collaboratively, allowing surgeons, physicians, radiologists, and other providers the opportunity to discuss complex cases and treatment plans to ensure patients receive seamless and efficient care.

Kidney Transplant Services

UPMC Hamot is the first and only hospital in the region to offer kidney transplants. The close partnership with the UPMC Kidney and Pancreas Transplant Program of the Thomas E. Starzl Transplantation Institute allows patients to receive the same level of care offered by leading experts worldwide.

Trauma Center

UPMC Hamot is the only accredited Level II trauma center in northwest Pennsylvania. It's staffed with an experienced team that includes trauma surgeons, orthopaedic surgeons, neurosurgeons, interventional radiologists, cardiovascular surgeons, and experts who specialize in reconstructive surgery and rehabilitation. The team also includes emergency physicians and nurses, as well as radiologists and anesthesiologists.

UPMC Children's Pediatric Care

From primary to emergency care, UPMC Children's Hospital of Pittsburgh offers a spectrum of inpatient and outpatient care right here in Erie for children from around our region.

UPMC Heart and Vascular Institute

UPMC Heart and Vascular Institute in Erie offers a variety of cardiovascular services and is a leader in heart care. UPMC Hamot was the first hospital in Erie to perform the transcatheter aortic valve replacement (TAVR) procedure, introduced the region's first valve center, peripheral vascular center, heart failure clinic, cardiac emergency department, and cardiac MRI. UPMC Hamot is also the

first certified comprehensive cardiac care center in the region and earned the Joint Commission Gold Seal of Approval®. These services are supported by Erie's largest team of heart care experts.

UPMC Hillman Cancer Center

UPMC Hillman Cancer Center provides access to high-quality, comprehensive cancer care right here in our community. UPMC Hillman Cancer Center is western Pennsylvania's only NCI-designated Comprehensive Cancer Center. This gives our patients local access to the latest clinical trials and research, which means our patients do not have to leave Erie to find comprehensive cancer care.

UPMC Magee-Womens

Located on the campus of UPMC Hamot, this state-of-the-art facility is devoted to the health care needs of women and children. UPMC Magee-Womens brings together a highly skilled team of health experts offering a comprehensive range of specialties, from obstetrics, neonatology, and gynecology to urogynecology, gynecologic oncology, infertility, plastic surgery, and breast health.

UPMC Neurological Institute

Neuroscience services at UPMC Hamot combine the talents of neurosurgeons, neurologists, neurointerventional radiologists, physician assistants, and therapists to offer world-class care of brain and spinal diseases and injuries, as well as advanced treatments for stroke. UPMC Hamot is certified as a Comprehensive Stroke Center by DNV GL Healthcare.
