

Library Services Mission

To assist in fulfilling the mission of UPMC Hamot - to promote the advancement of research, education and patient care.

The Library is committed to working with others to provide high quality, cost-effective, fully accessible services to health care providers.

The Library supports the creation of new knowledge, the education of health professionals, life-long learning, timely access to information, and informed health care decisions.

UPMC Hamot Library Services

UPMC Hamot Library has transitioned to the e-resources from the Health Sciences Library System (HSLs). This collection of electronic resources can be accessed by connecting to Pitt's HSLs website at www.hsls.pitt.edu or through the Physician Intranet Page or under Departments and click on Library Services. Although there are hundreds of journals, textbooks, and other electronic databases available to UPMC staff on the HSLs website, please note that some resources are available ONLY to those persons with a Pitt ID.

If you have any questions, please contact Diane Voelker, Hospital Library Manager at ext. 3628 or email voelkerdr@upmc.edu.

Remote access is available through your UPMC Access Account. (For assistance visit the UPMC Access Help page at <http://accesshelp.upmc.com>.)

For technical assistance with UPMC Access, please call the ISD Help Desk.
