

It's all **here.**

## Advanced Technology. Top Physicians. Excellent Care.

UPMC Passavant offers UPMC's brand of world-class medical care at two convenient campuses in McCandless and Cranberry to serve the communities and counties north of the city. UPMC provides a wide range of advanced health care throughout Pittsburgh's northern communities.

### At UPMC Passavant, it's all here:

- Two advanced, 24/7 emergency departments that provide top-quality care to pediatric patients, thanks to a partnership with UPMC Children's Hospital of Pittsburgh
- State-of-the-art technology, including surgical robots, robotic bronchoscopy, and 3D imaging
- Nationally recognized for the highest standards of care – nursing excellence, safety, and patient outcomes
- Close to home

At UPMC Passavant, patients also have access to UPMC's renowned Magee, Hillman, and Heart and Vascular Institute physicians and care – without having to travel to the city.

## Our Signature Services

### UPMC Heart and Vascular Institute

UPMC Passavant's approach to heart care allows for daily collaboration by cardiologists, vascular surgeons, and cardiothoracic surgeons. Cardiac services range from basic diagnostic testing to advanced imaging, to the most advanced surgical procedures, including transcatheter aortic valve replacement (TAVR), and dedicated programs like the Magee-Womens Heart Program. The institute has been nationally recognized for exceeding benchmarks for quality and patient outcomes.

### UPMC Hillman Cancer Center

UPMC Hillman Cancer Center is the region's only National Cancer Institute-designated Comprehensive Cancer Center, recognized for cutting-edge cancer care and significant research efforts that contribute to new and better therapies. Our cancer experts work together to bring advanced medical, radiation, gynecologic, and surgical oncology treatments close to home at UPMC Passavant, along with services like the latest clinical trials, nutrition counseling, symptom and side effect management, and other supportive services.

### UPMC Magee-Womens Specialty Services

UPMC Magee-Womens Hospital is a National Center of Excellence in Women's Health, one of the first recognized by the U.S. Department of Health and Human Services. That expertise is available at UPMC Passavant, which offers women's world-class specialty services, including gynecologic oncology and urogynecology, as well as minimally invasive gynecologic surgery. We also offer advanced laparoscopic surgery, lymphedema services, and robotic-assisted surgery, which can result in less scarring, minimal blood loss, and quicker recovery time.

### UPMC Outpatient and Specialty Care

Convenient outpatient care is available at UPMC Outpatient Center in Hampton and UPMC Specialty Care in Wexford.

UPMC Specialty Care on Perry Highway offers an interdisciplinary approach to patient care, including evaluation, testing, treatment, and rehabilitation for a variety of spinal problems. We provide our patients with truly comprehensive care by combining highly advanced imaging and diagnostics, cutting-edge treatments, and a multidisciplinary team of specialists. Because of our innovative approach to the diagnosis and treatment of spinal conditions, our spine program is one of the busiest in the region.

If needed, neck and spine surgery is performed at nearby UPMC Passavant-McCandless where our nationally respected surgeons apply the latest minimally invasive techniques. The surgeons, doctors, and therapists at the UPMC Spine Center provide comprehensive pre-and postoperative care to help maximize the success of our patients' surgical procedures.

### UPMC Passavant Gastrointestinal (GI) Center and Colon Services

The GI Center at UPMC Passavant is designed to be the best in the region in terms of patient-centered care, patient satisfaction, state-of-the-art services, equipment and technology, and excellence in patient safety and quality outcomes. Twenty-six private rooms, used for both pre-procedure and recovery, provide patients with the privacy and comfort they deserve. In addition, the GI Center houses eight procedure rooms, plus a dedicated pulmonary/bronchoscopy suite. Advanced diagnostic and treatment capabilities include BARRX®, Bravo™, single balloon enteroscopy, and navigational bronchoscopy, as well as endoscopic mucosal resection, endoscopic submucosal dissection, and peroral endoscopic myotomy.

*BARRX® is a trademark of Medtronic. Bravo™ is a trademark of BreviTest Technologies, LLC.*
