Overview
UPMC is committed to offering financial assistance to people who need emergency and other medically necessary care and are not able to pay for this care. You may be able to get financial assistance if you are not insured or underinsured and meet the eligibility requirements. You may also be able to receive financial assistance if paying your out-of-pocket expenses is seen as a financial hardship for you. UPMC strives to make sure that the financial capacity of people who need health care services does not stop them from seeking or getting care. This is a summary of the UPMC Financial Assistance Policy (FAP).

Availability of Financial Assistance
You may be able to get financial assistance if you do not have insurance, are underinsured, or if it would be a financial hardship to pay in full the expected out of pocket expenses for the emergency and other medically necessary care you received at UPMC. Please note that there are certain service exclusions that are not typically eligible for financial assistance, including, but not limited to transplants, cosmetic services, and other services.
Eligibility Requirements
Financial assistance is generally determined based upon need which is decided by a review of household income based on the Federal Poverty Level (FPL) and the amount of patient responsibility. If you and/or the responsibility. If you and/or the responsible party’s income combined is at or below 250% of the federal poverty guidelines, you will have no financial responsibility for the care given by UPMC. If you fall between 250 and 400%, you may get discounted rates for the care given by the provider. No person eligible for financial assistance under the FAP will be charged more for emergency or other medically necessary care than amounts generally billed to individuals who have insurance covering such care. If you already qualify for certain types of governmental aid we may, in certain cases, presume you are eligible for financial assistance. If you have sufficient insurance coverage or are determined to have enough income available to pay for your care, you may not be eligible for financial assistance. Please read the full policy for a complete explanation and details.
