How We May Use and Share Your Health Information with Others

The law permits us to use and share your health information in certain ways. When we share this information with others outside of UPMC and The Washington Hospital Cancer Center, we will share what is reasonably necessary. When we act in response to your written permission, share information to help treat you, or are directed by the law, we will share all information that you, your health care provider, or the law permits or requires. The list below tells you about different ways that we may use your health information and share it with others. We have also provided you with examples of what we mean. Every possible example of how we may use or share information is not listed below. However, all of the ways we are permitted to use and share information fall into one of the groups below. When possible, we will use health information that does not identify you.

A. Ways We Are Allowed to Use and Share Your Health Information With Others Without Your Consent or as the UPMC and The Washington Hospital Cancer Center General Consent for Treatment, Payment, and Health Care Operations Provides:

1) Treatment. We may use your health information to give you medical treatment or services. We may share your health information with people and places that provide treatment to you. For example, if you have diabetes, the doctor may need to tell the dietitian about your diabetes so that you get the kind of meals you need. We may share health information about you with people outside of UPMC and The Washington Hospital Cancer Center who provide follow-up care to you, such as nursing homes and home care agencies. At all times, we will comply with any regulations that apply.

2) Payment. In order to receive payment for the services we provide to you, we may use and share your health information with your insurance company or a third party. We may also share your health information with another doctor or facility that has treated you so that they can bill you, your insurance company or a third party. For example, some health plans require your health information to pre-approve you for surgery and require pre-approval before they pay us.

3) Health Care Operations. We may use and share your health information so that we, or others that have

provided treatment to you, can better operate the office or facility. For example, we may use your health information to review the treatment and services we gave you and to see how well our staff cared for you. We may share your health information with our researchers so they can develop plans to conduct research. We may share information with our students, trainees and staff for review and learning purposes.

4) Business Associates. We may share your health information with others called “business associates”, who perform services on our behalf. The Business Associate must agree in writing to protect the confidentiality of the information. For example, we may share your health information with a billing company that bills for the services we provided.

5) Appointment Reminders. We may use and share your health information to remind you of your appointment for treatment or medical care. For example, if your doctor has sent you for a test, the place where the testing will be done may call you to remind you of the date you are scheduled.

6) Treatment Options and Other Health Related Benefits and Services. We may use and share your health information to tell you about possible treatment options and other health-related benefits and services that may interest you. For example, if you suffer from an illness or condition, we may tell you about a special treatment or research study that is being offered.

7) Fund-Raising Activities. We may use and share with a Business Associate or a foundation that is related to us your name, address, phone number and other such information (called “demographic information”) and dates that health care was provided to you. You may then be asked for a donation to UPMC and The Washington Hospital Cancer Center. For example, you may receive a letter from a UPMC Cancer Center foundation asking for a donation to support enhanced patient care, treatment, education or research at UPMC and The Washington Hospital Cancer Center. Any fund-raising materials will explain how you can tell us, a Business Associate or a foundation that you do not want to be contacted in the future.

8) Marketing Activities. We may use or share your health information for marketing purposes without your permission when we discuss such products or services with you face to face or to provide you with an inexpensive promotional gift related to the product or service. For example, you may receive samples of products or drugs during a visit to a UPMC and The Washington Hospital Cancer Center facility. For other types of marketing activities we will obtain your written permission before using or sharing your health information. We will not sell your name or any identifiable health information to others without your authorization.

9) Research. We may use and share your health information for research 1) if our researcher obtains permission from a special UPMC committee that decides if the request meets certain standards required by law or 2) if you provide us with your written permission to do so. You may participate in a research study that requires you to obtain hospital and other health care services. In this case, we may share the information that we create 1) to our researcher who ordered the hospital or other health care services; and 2) to your insurance company in order to receive payment for services, that your insurance will pay for.

We may also use and share with a UPMC Cancer Centers' researcher your health information if certain parts of your information that would identify you, such as your name and other items that the law describes are removed before we share it with the UPMC Cancer Centers researcher. This will be done when the researcher signs a written agreement with us that the researcher will not share the information again, will not try to contact you and will obey other requirements that the law provides. We may also share your health information with a Business Associate who will remove information that identifies you so that the remaining information can be used for research.

10) Special Situations. In the following situations, the law either permits or requires us to use or share your health information with others. Pennsylvania law may further limit these disclosures; for example, in

cases of behavioral health information, drug and alcohol treatment information, and HIV status:

- a. **As Required By Law.** We will share your health information when federal, state or local law requires us to do so.
 - If we believe that you have been a victim of abuse, neglect (except child abuse or neglect) or domestic violence, we may share your health information with an authorized government agency. We will do so either if you agree to our sharing this information or if the law allows us to do so and we believe that we need to share the information in order to protect you or someone else. If we decide to share your health information for this purpose, we will tell you unless we believe that telling you would put you at risk of harm or you are a personal representative of the victim and may be involved in the abuse, neglect or injury.
 - We may share your health information in response to an administrative or court order, a subpoena, a discovery request or other legal process if we are advised that you have been made aware of the request or we receive notice either that you agree or, if you disagree with the request, that you are taking action to prevent the disclosure.

 - If asked to do so by a law enforcement official, we may share your health information if you are an adult victim of a crime and, in certain limited cases, we are unable to obtain your permission and the law enforcement official meets certain conditions described by law.

- (b) ***To Prevent a Serious Threat to Health or Safety.*** We may use and share your health information with persons who may be able to prevent or lessen the threat or help the potential victim of the threat when doing so is necessary to prevent a serious threat to the health and safety of you, the public or another person. Pennsylvania law may require such disclosure when an individual or group has been specifically identified as the target or potential victim.

For example, we may share your health information to 1) report child abuse or neglect, 2) collect and report on the quality, safety and effectiveness of products and activities regulated by the Food and Drug Administration (FDA) (such as drugs and medical equipment and could include product recalls, repairs and monitoring) or 3) notify a person who may have been exposed to or is at risk of spreading a disease.
- (g) ***Health Oversight.*** We may share your health information with a health oversight agency for purposes of 1) monitoring the health care system, 2) determining benefit eligibility for Medicare, Medicaid and other government benefit programs and 3) monitoring compliance with government regulations and civil rights laws.

This permission is provided through a form. If you give us permission to use or share health information about you, you may cancel that permission, in writing, at any time. If you cancel your permission, we will no longer use or share your health information for the reasons you have given us in your written permission. However, we are unable to take back any information that we have already shared with your permission.

Your Rights Concerning Your Health Information

The law gives you the following rights about your health information:

1. **Right to Ask To See and Copy.** You have the right to ask to see and copy the health information we used to make decisions about your care. Your request must be in writing and given to your doctor or the place where you were treated. You can call your doctor's office or the place where you were treated to find out how to do this. If you ask to see or copy your health information, you may have to pay fees as permitted by law. We may tell you that you cannot see or copy some or all of your health information. If we tell you this, you may ask that someone else at UPMC and The Washington Hospital Cancer Center review this decision. A licensed health care professional chosen by UPMC and The Washington Hospital Cancer Center will review those that can be reviewed. This person will not be the same person who refused your request. We will do whatever this person decides.

You must put your request in writing and give it to your doctor or the place where you received care.
