

# UPMC INFUSION SERVICES

Why Choose UPMC Infusion Services?

**UPMC Infusion Services offers outpatient infusion services to provide patients with a safe and comfortable outpatient setting to receive infusion therapy.**

Our outpatient infusion centers are staffed by a highly experienced team of physicians and registered nurses. Our staff works with referring physicians to provide quality, personalized infusion care to ensure the patient maintains a normal routine with appointments available at convenient times as part of an overall continuum of care.

## Our Services

- Biologic therapy
- Blood transfusions
- Intravenous immune globulin (IVIG)
- Hydration therapy
- Subcutaneous (SQ) and intramuscular (IM) injection
- Intravenous nutrition
- Pain management
- Administration of IV antibiotics and other medications

**Patients can receive their IV therapies in a peaceful, pleasant environment and take advantage of several amenities including:**

- Recliner chairs
- Snacks
- Complimentary beverages
- Cable television
- Free Wi-Fi

## Locations Near You

Therapy times vary based on the treatment. All therapies must be ordered by a UPMC physician. Services are offered throughout the week at multiple locations. To schedule an appointment at a UPMC Outpatient Infusion Center, please contact that individual facility. For more information visit [UPMC.com/InfusionCenter](http://UPMC.com/InfusionCenter).
