

SKILLED NURSING AND REHABILITATION FACILITIES

MEMBERS OF OUR CLINICAL TEAM

Canterbury Place, Cranberry Place, Heritage Place, Jameson Care Center,
Seneca Place, Sherwood Oaks, Sugar Creek Station

Geriatricians

Physicians trained specifically in the care of seniors and their specific medical needs.

Physiatrists

Physicians trained in physical medicine and rehabilitation

Registered Nurses (RN)

A registered nurse assesses the patient's physical, psychological, and social needs to deliver individualized care while collaborating with the physician. The RN administers medications, performs skilled treatments, and supervises direct nursing care. The director of nursing (DON) and unit managers (UM) are registered nurses.

Licensed Practical Nurse (LPN)

A licensed practical nurse provides patient care under the supervision of an RN, according to the individualized plan of care.

Certified Nursing Assistant (CNA)

A certified nursing assistant works under the supervision of the RN and LPN, and provides or assists with basic care services.

Restorative Therapies

Restorative nursing programs promote the patient's ability to live as independently and safely as possible. Team members are responsible for coordinating these programs and work under the direction of the restorative nurse coordinator.

Certified Registered Nurse Practitioner (CRNP)

A certified registered nurse practitioner works with the medical director of the facility to provide on-site medical support for patients by monitoring both chronic and acute conditions.

Wound Care Nurse

Wound care nurses provide education and deliver specialized health care to individuals with wounds, ostomies, and incontinence.

Infection Control Nurse

Infection control nurses monitor active infections or potential risks for infections, and use appropriate isolation techniques to prevent transmission of infections while following Centers for Disease control guidelines.

Case Manager (CM)

A case manager is a member of the interdisciplinary team and works with the patient's insurance company to provide the clinical information needed for skilled nursing reimbursement.

Social Worker (SW)

A social worker provides a wide variety of services, including assisting with psychosocial problems, counseling patients, advising family caregivers, planning for the patient's discharge, and arranging for services needed at home.

Physical, Occupational, and Speech Therapists (PT, OT, ST)

Physical, occupational, and speech therapists provide therapeutic treatment modalities to promote independence and maximize the patient's level of functioning.

Activities Director

The activities director is responsible for coordinating activities to promote physical and psychosocial aspects of care.

Registered Dietician

A registered dietitian oversees and provides recommendations for the nutritional care of patients.
